### New criteria of Forklift Trucks

Hyundai introduces a new line of 7 series diesel forklift trucks. Excellent power and performance make your business more profitable.

**OPSS (Operator Presence Sensing System)**  
Control of mast tilting, lifting and lowering is not possible through operation of the appropriate control when the operator is not in the normal position. (Option)

# High Power & Performance

## Powerful Engine KUBOTA V3300 Engine

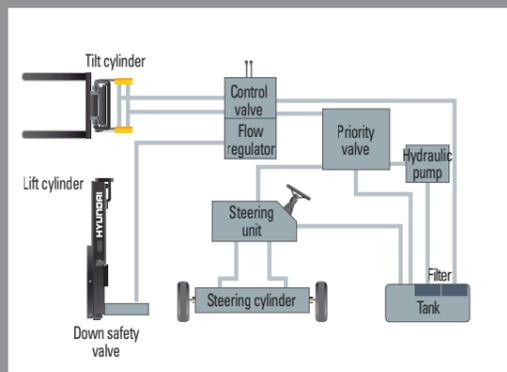

Market approved quality of Kubota V3300 engine ensures incomparable performance, durability and additional value to the machine. 47kW of the engine is more than enough to suit any work, not just with normal 47kW but with special attachments requiring high power as well. (EPA/EU Tier-2 Certified)

47kW/2,300rpm

## State-of-the-art hydraulic system

The latest large-capacity hydraulic system reacts quickly during operation, and a low-noise control valve increases both efficiency and durability.

**Ability of best,  
The new master on the  
job-site!**

Smooth running, efficient and ergonomically designed, 20/25/30/33D-7 series are made to meet your needs.

Some of the photos may include optional equipment.

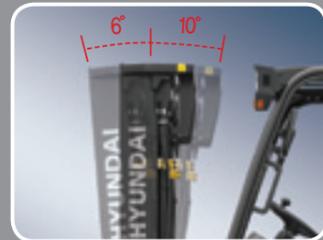

## Fast and stable performance

Being able to quickly raise and lower the mast, as well as tilt it forward and backward, provides the best operational conditions during unloading. When the truck is fully loaded, mast lowering speed is carefully controlled to ensure safety by the down control valve.

## Faster travel speed & Gradeability

The powerful high-output engine provides greater acceleration, better gradeability and faster travel speed on any tough terrain or slope.

	Gradeability(Loaded)		Travel speed(Unloaded)	
20D-7	24.2°	30D-7 17.3°	20D-7 18.5km/h	30D-7 19.4km/h
25D-7	21.3°	33D-7 15.8°	25D-7 18.5km/h	33D-7 19.4km/h

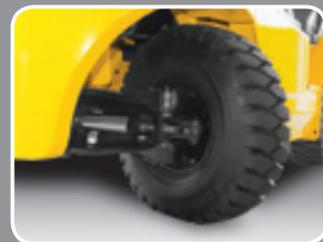

## Increased mast tilting angle

Utilizing the mast tilting angle of 6 degrees forward and 10 degrees backward, the operator can safely and rapidly perform loading and unloading jobs.

## Wet disc brake system

The wet disc brake system is virtually maintenance free and is enclosed to protect from dust and water.

## Fully hydrostatic power steering

A hydraulic steering system always guarantees smooth and flexible steering, preventing overrun and kick-back.

## Key-locking fuel cap

Increased security on job sites with locking fuel cap, plus an increased capacity fuel tank for less down time. (option)

## Comfortable Operation

### Adjustable steering wheel

Steering wheel with horn button can be adjusted by a lever on the right-hand side for the most comfortable operator position.

### Easy and safe shift lever

A single lever on the left side of the steering column gives the operator fast, easy control of direction. The engine can be started in case of neutral position of this lever.

### Multi-function switch lever

Multi-functional switch lever gives easy access to lights and horn.

### Quick response of operating control levers

Only minimal operator's effort is required for precise, safe and productive control.

Some of the photos may include optional equipment.

## Ergonomics driving space design!

A design based on human engineering relieves fatigue and increase operator's efficiency.

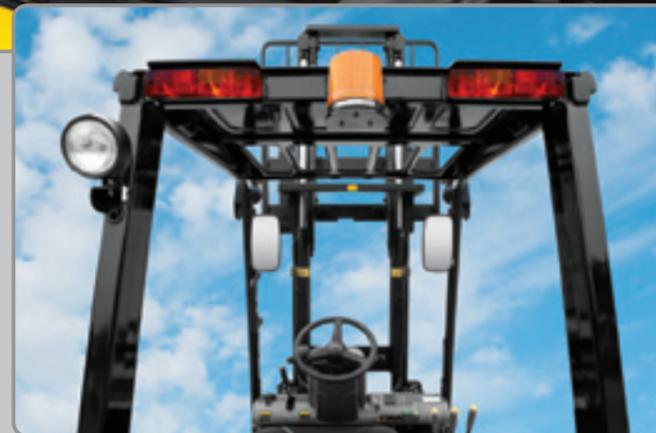

### Ergonomically positioned pedals

Based on human engineering, the accelerator, brake and inching pedals are optimally positioned for convenience while operating the equipment.

### Cup holder & console box

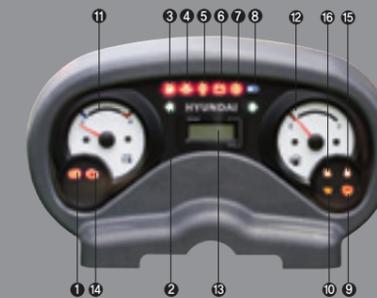

Additional storage spaces are located inside the operating space for operator's convenience.

### New high visibility for safe operation

The operator is able to work with increased safety and accuracy due to a wider view mast.

### Operator friendly gauges and water-resistant monitor panel

### Easily adjustable suspension seat

An attractive and adjustable seat, based on a human engineering design, provides great comfort, safety and durability.

### Full-floating headguard mount

The anti-vibration rubber is installed between the guard and truck frame to reduce the source of vibration and noise while driving. This not only reduces operator's fatigue but also increases safety.

## Endurance & Safety

### Strong overhead guard

The safety overhead guard meets EEC and ANSI regulations and protects the operator during hazardous jobs.

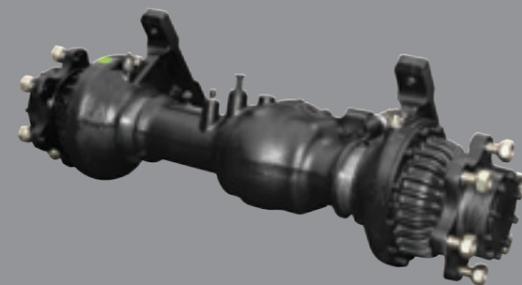

### Parking brake

Ratchet type parking brake requires less efforts from the operator to set.

### Highly durable split type drive axle

The bevel gear set and hub reduction axle smoothly delivers desired torque to the drive wheels.

## Danger-free through high durability!

Safety and durability are priorities in the design of the equipment.

■ Some of the photos may include optional equipment.

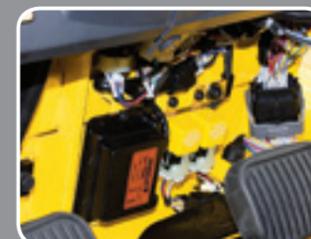

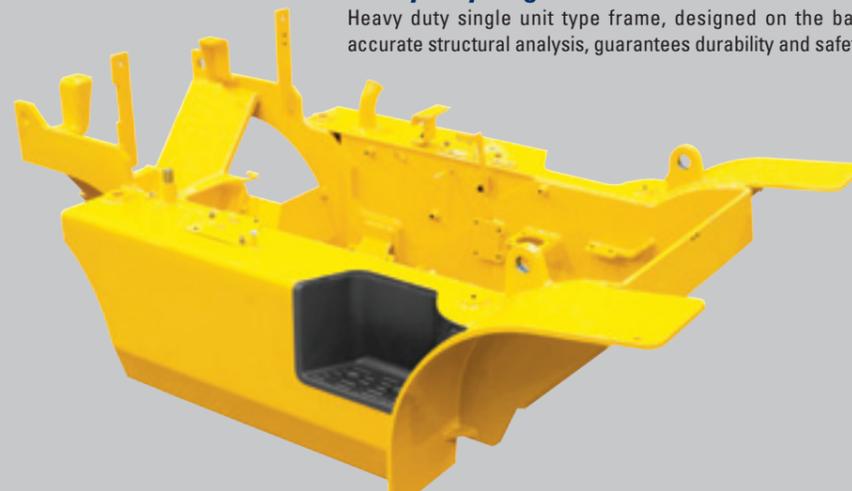

### Large footboard & Hand grip

Wide "open" step offers convenience and safety when entering and exiting truck.

### Heavy duty single unit frame

Heavy duty single unit type frame, designed on the basis of accurate structural analysis, guarantees durability and safety.

### Improvement in maintenance of electric parts

Various electric parts are centralized in dash board resulting in improve-ment in maintenance.

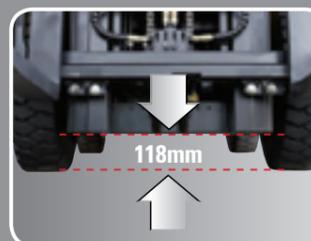

### Expansion bellows

The expansion bellows absorbs vibration and reduces noise generated from the exhaust gas system and also extends the life cycle of exhaust gas system.

### Bright, protected headlights

Bright, protected headlights are positioned for exceptional visibility.

### Ground clearance

The engine and transmission are assembled horizontally and positioned high in the frame to protect expansive components during operation on rugged surface.

**Electrically monitored air filter**

Air cleaner sensor alerts the operator of a restricted air filter and allows replacement before damage.

**Brake fluid reservoir**

Highly visible, easily accessible reservoir makes for quicker daily inspections.

**An accessible, compact fuse box for easy inspection**

**Centralized design for easy service!**

An ideal arrangement of component parts ensures easy access and convenience for maintenance.

**Hydraulic oil check**

**Automatic self locking gas spring**

Engine compartment hood is held safely open by a self locking gas spring.

**Easy change air cleaner**

The air filter is readily accessible for cleaning or replacement. (7inch Cyclone Type)

■ Some of the photos may include optional equipment.

**Large open engine hood**

Highly accessible engine compartment assures fast and efficient maintenance.

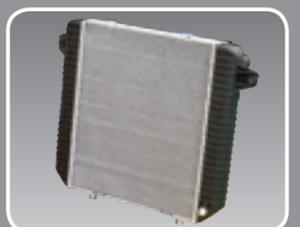

**Battery master switch**

**Portable side cover**

**One touch(tool-less) floor plate**

**Aluminum radiator with superb protection against heat**

**Engine oil condition check**
